- Capital Improvement Projects

Transmittal Memo

Date: June 20, 2024
To: Board of Directors
From: Tony Rubio, District Manager
Subject: Management Report for May 2024

Fiscal Status

Period Covered: July 1, 2023 –June 13, 2024
Percent of Fiscal Year: 91.6%
Percent of Budgeted Income to Date: 110.5%
Percent of Budgeted Expenditures to Date: 109.5% (operating only) Includes \$980K UAL

Personnel

Separations: 1
New Hires: None
Promotions: None
Recruitment Activities: 1 Maintenance/Collection System Technician

Regulatory Compliance

MP Collection System WDR Compliance: Full Compliance with all regulations
PC Collection System WDR Compliance: Full Compliance with all regulations
MP NPDES Permit Compliance: Full Compliance with all regulations
PC NPDES Permit Compliance: Full Compliance with all regulations
BAAQMD Compliance: Full Compliance with all regulations
Significant Comments: None

Summary of Operational Highlights are on the following pages.

Significant Events for the Month of May 2024 Include:

Financial/Budgetary/Business Administration

- Bookkeeper Jill Kalehua from DMMS (Daily Money Management Services) continues to assist with monthly AR/AP (accounts receivable/accounts payable)
- Business Server file clean up under way correcting file permissions
- Connection Fee update work with HF&H completed. July Board Meeting presentation.

HR and Personnel

- SOP's being created for CalPERS Retirement and 457 Reporting and payments and other HR/Administrative Monthly Tasks
- Working to implement employee portal through website, as well as portal for Board of Directors

Continuing Education and Safety Training

- Work with DKF solutions on District safety program updates on-going. Work Place Violence Prevention Policy Creation and Training and CBT review. (new requirement SB-553
- SD5 staff hosted monthly Public Education Meeting.

Collection System Performance

Main Plant Tiburon/Belvedere/Paradise Cove

- No Spill report for month of April to RWQCB on CIWQS
- Rodder and Vactor work continues being performed by staff
- CCTV project work nearly completed.
- 0 Odor complaints for reporting period

Treatment Plant Performance

Paradise Cove WWTP

- Submitted 1st Quarter SMR and DMR to the RWQCB on CIWQS

Tiburon Main WWTP:

- Submitted April 2024 Monthly SMR and DMR to the RWQCB on CIWQS.
- DW back in service

- WW tank out of service for valve maintenance and sludge Pumping stator replacements
- Painting project wrapping up- plan railing painted, DW primary effluent lines painted in hallway and headworks pump piping painted.
- Tree trimming completed along with dead ivy removal in preparation for tank wall inspection, stucco repairs, repainting and landscaping improvements (front wall area will have water service work completed during MMWD water line replacement project.

Pollution Prevention Activities

- P2 group meeting

Capital Improvement Projects

- 2022 Sewer Rehab - Project complete- Retention Release and Filing of Notice of Completion
- Cove Road MCC and Generator replacement project design at 90%
- Digester Cleaning and Rehab project Notice of award issued- working with all parties to establish notice to proceed date.
- Pipe line segments selected for the Sewer Rehab Project FY24/25- Nute to send over proposal for design and construction management of project.

Glossary of Terms

- **B.O.D. (Biochemical Oxygen Demand):** Measurement of the effluent's capacity to consume dissolved oxygen to stabilize all remaining organic matter. The permit limits for our effluent for discharge into San Francisco bay require that we remove 85% influent B.O.D. and meet a weekly average of less than 45mg/l and a monthly average of less than 30 mg/l B.O.D.
- **TSS (Total Suspended Solids):** Measurement of suspended solids in the effluent. Our permit requires that we remove at least 85% of the influent TSS and that the effluent limit is less than 45 mg/l as a weekly average and less than 30 mg/l as a monthly average.
- **Chlorine Residual:** The plant effluent is disinfected with hypochlorite (chlorine "bleach") and then the residual chlorine is neutralized with sodium bisulfite to protect the bay. The effluent chlorine residual limit is 0.0 mg/l which we monitor continuously.
- **pH:** pH is a measurement of acidity with pH 7.0 being neutral and higher pH values being basic and lower pH values being acidic. Our permit effluent pH must stay within the range of 6.0-9.0, which we monitor continuously.
- **Coliform:** Coliform bacteria are the indicator organism for determination of the efficiency of the disinfection process. The lab culture samples of our effluent and the presence of coliform is an indication that pathogenic organisms may be present. This is reported as MPN/100 (number of coliform bacteria in 100 milliliters sample).
- **Flow Through Bioassay:** A 96 hour test in which we test the toxicity of our effluent to tiny fish (sticklebacks) in a flow through tank to determine the survivability under continuous exposure to our effluent. Our permit requires that we maintain a 90th percentile survival of at least 70% and an 11 sample median survival of at least 90%. In layman's terms, this means that out of the last 11 samples only one bioassay may fall below 70% survival and the middle value when all 11 samples are placed in numerical order must be at least 90%.
- **Metals Analysis:** Our permit requires that we analyze our effluent for many different metals on a monthly basis. We have permit limits for some metals. The metals are stated as a daily max and a monthly average limit. The daily max limit is the number we cannot exceed on any sample and the monthly average applies to all samples collected in any month (although usually we are only required to take one).
- **F.O.G. (Fats, oils and grease):** Quarterly we are required to monitor our effluent for Fats, Oils and Grease.

Glossary of terms continued...

- **Headworks:** The point where all raw wastewater enters the treatment plant. In this building wastewater goes through 3 grinders to grind up all large objects that could possibly damage our influent and sludge pumps further down the treatment process.
- **Primary Sedimentation:** The next treatment process is a physical treatment process where solids that settle or float are removed and sent to the digesters for further processing.
- **Activated Sludge:** Next is the activate sludge process. This process is a biological wastewater treatment process that uses microorganisms to speed up the decomposition of wastes. When activated sludge is added to wastewater, the microorganisms feed and grow on waste particles in the wastewater. As the organisms grow and reproduce, more and more waste is removed, leaving the wastewater partially cleaned. To function efficiently, the mass of organisms needs a steady balance of food and oxygen. These tasks are closely monitored by the operations staff.
- **Secondary Clarification:** Next is secondary clarification, like primary sedimentation/clarification, this also is a physical treatment process where solids that settle or float are removed and sent to the next treatment process. The difference between Secondary Clarification and primary sedimentation is that the solids removed from the secondary clarifiers goes to 2 places. Some goes to waste to the DAFT and some goes back to the activated sludge process for further treatment. (*Microorganisms must be returned to the activated sludge process to keep an equal balance of food and microorganisms*).
- **DAFT (dissolved air floatation thickener):** Next is the DAFT. The dissolved air floatation thickening process uses air bubbles to thicken WAS(waste active sludge) solids removed from the secondary clarifier, by floating solids to the tank surface, where they are removed and sent to the digesters for final processing.
- **Sludge Digestion:** In the anaerobic digestion process, all the organic material removed from the primary sedimentation tanks and DAFT's are digested by anaerobic bacteria. The end products are methane, carbon dioxide, water and neutralized organic matter.
- **Solids Handling:** This is the process where all the neutralized sludge from the digester is finally treated. Sludge from the digester is pumped to the screw press where it is conditioned with a polymer (chemical that reacts with the sludge to remove the water from the sludge and bind the sludge particles together) in order to dewater the sludge and produce a dry cake for final disposal to the Redwood landfill.

Glossary of terms continued...

- **Disinfection:** This is the end point for the wastewater- at this point wastewater flows through the chlorine contact tank. This contact tank allows for enough contact time for chlorine solution to disinfect the wastewater. Sodium bisulfite is introduced at the end of the tank to neutralize any residual chlorine to protect the bay.
- **MLSS (mixed liquor suspended solids):** Suspended solids in the mixed liquor of an aeration tank measured in mg/l
- **MCRT (mean cell resident time):** An expression of the average time that a microorganism will spend in the activated sludge process.
- **SVI (sludge volume index):** This is a calculation used to indicate the settling ability of activated sludge in the secondary clarifier.
- **RAS (return activated sludge):** The purpose of returning activated sludge, is to maintain a sufficient concentration of activated sludge in the aeration tank.
- **WAS (waste activated sludge):** To maintain a stable process, the amount of solids added each day to the activated sludge process are removed as WAS. We track this by our MCRT which averages 3 days
- **TWAS (thickened waste activated sludge):** The WAS is thickened in the DAFT and the thickened sludge is then pumped to the digester.
- **MPN (most probable number):** Concentrations of total coliform bacteria are reported as the most probable number. The MPN is not the absolute count of the bacteria but a statistical estimate of their concentration.
- **Bio-solids:** Anaerobic digested sludge is pumped to a screw press where excess water is removed to reduce the volume (and weight) thus producing an end result called bio-solids.
- **Polymer:** Organic polymers are added to digested sludge to bring out the formation of larger particles by bridging to improve processing.

2 SD5 MISSION STATEMENT, VALUES AND GOALS

2.1 SD5 MISSION STATEMENT

Sanitary District No.5 of Marin County is a special district dedicated to the protection of public health and the environment through effective and economical collection, conveyance, treatment, and disposal of wastewater that meets or exceeds all local, state, and federal regulations.

2.2 SD5 VALUES

Sanitary District No.5 of Marin County Board Members and Staff operate under a set of core values in respect to all District Functions. That set of values include:

- Public Health & Sanitation
- Excellent Customer Service
- Fiscal Responsibility
- Public Transparency
- Work-Place Safety
- Effective/Reliable Long-Term Capital, Operation, Maintenance, Fiscal Planning
- Valued Work Force
- Effective Communication and Decision Making
- Environmental Stewardship

2.3 SD5 GOALS

As outline in the Districts Strategic Plan the District has six major goals which assumes Financial Stability as the overall goal:

- Goal One: *Protecting Public Health and Employee Safety*
- Goal Two: *Infrastructure Reliability*
- Goal Three: *Fiscal Accountability*
- Goal Four: *Operational Capability*
- Goal Five: *Employee Development*
- Goal Six: *Resource Recovery/Energy Sustainability*

3 SD5 GENERAL INFORMATION AND DESCRIPTION OF FACILITIES

3.1 SD5 GENERAL HISTORY

- Sanitary District No.5 of Marin County was formed in 1922 primarily as a refuse district.
- 1960's a primary treatment plant was constructed at its current location at 2001 Paradise Drive.
- 1980's the District added on a secondary treatment portion to the plant to comply with new local and federal standards of the 1972 Clean Water Act
- The District shares an outfall with SASM (Sewerage Agency of Southern Marin) The District is responsible for dechlorinating SASM's effluent prior to discharge into the receiving waters of the state of California.
- 1980's, a smaller, secondary treatment package plant was constructed on the eastern side of the Tiburon peninsula to serve the unincorporated area of Tiburon, known as the Paradise Cove plant.
- In 2005 the City of Belvedere sewage collection system was annexed to the District.
- Sewer Rates were last raised in 2015 (8 Years) as part of the Ordinance 2010-03 and 2010-04. The 2022 Belvedere Zone was \$1985 per EDU compared to \$1034 per EDU in the Tiburon zone.
- Sewer Rate Increases were required and approved by the Board of Directors effective July 1, 2023. The Base Rate is \$1848 in which Tiburon residents pay \$1358 per edu as a result of an Ad-Valorem credit that on average is around \$490 per EDU.
- The 2024/2025 Sewer Service Base Rate increased to \$2033 per EDU in which Tiburon residents pay \$1534 as a result of an Ad-Valorem credit that on average is around \$499 per EDU.

3.2 SD5 FACILITIES DESCRIPTION

The District owns and operates two (2) wastewater treatment plants and its associated collection and conveyance systems.

- The Paradise Cove Treatment plant has a capacity of up to 40,000 gallons per day, with a peak flow max of 100,000 gallons per day. It is an extended aeration activated sludge secondary treatment plant that serves the unincorporated portion of Tiburon.
- The Tiburon Main Treatment Plant has a secondary treatment capacity of up to 2.3 MGD with a peak flow wet weather hydraulic max of 6.7MGD. It is a conventional activated sludge treatment plant with a dry weather permitted flow of .98MGD, serving the Town of Tiburon east of Gilmartin and the City of Belvedere.
- There is a total of 24 pump stations in the Districts service area. 22 providing pumping to the Main Treatment Plant and 2 providing pumping to the Paradise Cove Plant
- Of those 24 pump stations 13 are in the City of Belvedere and 11 in the Tiburon service area
- There is a total of 153,120 linear feet (29 miles) of gravity sewer lines that range in size from 6" to 24"
- There is a total of 26,400 lineal feet (5 miles) of pressure force main.
- There is a total of 2,310 residential connections and 86 commercial accounts. The estimated population for the Districts service area is 8,800 people.
- There is a total of 3,623 EDU's (equivalent dwelling units) in FY2023/2024

4 BUDGET INTRODUCTION

Sanitary District No.5 of Marin County (“SD5” or “District”) is a special enterprise district that was formed under the Sanitary District Act of 1923 (California Health and Safety Code, Section 6400 et. Seq). The District was established on May 22, 1922 and later reorganized on March 17, 1947 establishing new boundaries and currently serves approximately 2,396 (parcels) residential and commercial connections and 3,623 EDU’s (equivalent dwelling units) over 6.4 square miles within the Town of Tiburon East of Gilmartin Drive and the City of Belvedere and the unincorporated area of Tiburon between 3150 Paradise Drive and 4200 Paradise Drive.

The Fiscal Year 2024-2025 Budget supports the following strategic plan goals:

- Ensure sewer rates are adequate for the operation of the District.
- Review CalPERS unfunded liabilities annually and ensure adequate funding is in place.
- Ensure Achievable CIP Plan is in-line with current level of funding.
- Review Sewer Rates (2027-2028)
- Ensure Adequate Sewer Reserves in-line with Reserve Policy
- Review California Employee Retirement Benefit Trust (CERBT) Trust Funding to ensure OPEB funding is on track.
- Evaluate & Apply for Grant Funding when applicable.
- Review MOU obligations regarding Classic and PEPR and keeping pensions costs down.

4.1 BUDGET GUIDE

The Fiscal Year 2024-2025 Budget document is organized into the following sections:

- Fiscal Year 2024-2025 Budget Overview
 - Income Summary
 - Expense Summary
- Operations and Maintenance Budget
 - Operating Income
 - Operating Expenses
 - Staff Summary and Organization Chart
- Capital Budget
 - Capital Improvement Income
 - Capital Improvement Expenses
- Reserve Policy
- Appendix A-I

A complete set of financial schedules for the budget are included in the Appendix A-I of this report.

4.2 BUDGET OVERVIEW

This segment presents a summary of the budget by income sources and expenses. They are split between Tiburon and Belvedere. Expenses are split between Operating Expenses and Capital Expenses. Fund balances are also shown on this overview. Each of these areas are broken down into greater detail in later sections of this report. Table 1 (below) shows the previous year budget, the actuals, and the proposed budget for FY2024-2025.

In summary, the FY2024-2025 budget includes \$6.9 million in total income, \$8.59 million in total expenses and an ending fiscal year balance of \$17.9 million.

Table 1- Budget Summary

Type	FY23-24 Budget	FY23-24 Actuals	FY24-25 Budget
<i>Income</i>		(as of 6/20/2024)	
Property Tax Tiburon	\$1,206,814	\$1,370,584	\$1,258,600
SD5 as a whole - Sewer Service	\$4,976,505	\$5,231,018	\$6,143,508
Interest	\$100,000	\$260,679	\$200,000
Connection Fees	\$200,000	\$373,108	\$400,000
PDSLE Fees	\$16,250	\$17,750	\$14,040
Other Income	\$100	\$0	\$100
Permit Fees/Inspection	\$32,500	\$19,750	\$32,500
SASM Reimbursement	\$75,000	\$62,272	\$75,000
Total Budgeted Income	\$6,607,169	\$7,377,357	\$8,123,748
<i>Expense</i>			
Operating Expense	\$5,107,414	\$5,519,434	\$5,391,212
Capital Expense	\$2,502,790	\$1,681,655	\$7,065,280
Total Budgeted Expense	\$7,610,201	\$7,201,089	\$12,456,492
Net Ordinary Income- Expenses	(\$1,003,032)	\$176,268	(\$4,332,744)
<i>Fund Balances</i>	(as of July 1, 2023)	(as of 6/20/2024)	
Operating Reserve	\$1,000,855	\$1,508,028	
Capital Reserve	\$9,650,760	\$9,725,065	
Emergency Reserve	\$1,000,000	\$1,000,000	
Unfunded Accrued Liability Reserve	\$1,000,000	\$71,951	
CERBT Fund Balance	\$1,273,715	\$1,397,761	
(operating fund balance)	\$3,423,632	\$4,458,892	
Total Cash Balance including reserves	\$16,653,676	\$16,440,183	
<i>CERBT Fund Balance (not included)</i>			

4.3 INCOME SUMMARY

The District has 2 major recurring sources of annual income: sewer service charges and ad valorem (property taxes- Tiburon Only). Additionally, the District receives other minor revenue from permit and connection fees, bank deposit interest and other income.

Income Assumptions:

- \$1534 for the Ad Valorem Contributing parcels (Tiburon) per EDU (equivalent dwelling unit)
- \$2033 for the Non- Ad Valorem Contributing parcels (Belvedere + 2 Unincorporated) per EDU
- Interest Revenue for LAIF account is estimated at 4% for FY2024-2025
- Ad Valorem (Property Tax) applies to Tiburon Parcels only
- Excess ERAF (educational Revenue Augmentation Fund) is subject to CA tax shifts
- Other income: Outstanding accounts receivable, Private SSO Reimbursements, CAL- Card incentive payments and CSRMA PLP Dividends.

Chart 1- Budgeted Income by Source

4.4 EXPENSE SUMMARY

Expenditures are split in two basic categories: Operations/Maintenance and Capital. Chart 2 shows the breakdown of major expenditure categories in FY2024-2025, with operations totaling 44% and Capital totaling 56%.

Expense Assumptions:

- Salary categories include a 3.7% COLA (cost of living) increase
- PERS Classic Members Employer Contribution rate is 16.02% and EPMC rate is 8% for FY24-25
- PEPRAs Member Contribution rate is 7.75% and the Employer rate is 7.87%
- Classic Members are scheduled for 7% reimbursement to the District for Employer Paid Contribution rate.
- Workers compensation XMOD (experience modification) factor is 0.93%

Chart 2 Budgeted Expenditures by Type

Total salary and benefit costs include all direct wages/salaries, payroll taxes and benefits. It also includes retiree health payments, retiree health prefunding for current employees and CalPERS retirement reserve funding. Total Personnel Costs in FY 2023-2024 were \$2.95 Million and personnel costs budgeted for FY 2024-2025 are estimated at \$3.07 Million. A 3.7% increase in COLA is projected for FY24-25.

Other operational expenditures are costs associated with general operations of the District and are categorized as Administrative Expense, Pumps and Lines Maintenance, Main Plant Maintenance, Paradise Cove Maintenance, Monitoring, Permits and Fees, Truck Maintenance, Utilities and other operating expenses (I.T. & Safety). Total Operating Costs for FY24-25 minus the personnel costs are estimated to be \$2.32 Million Dollars.

Capital expenditures includes costs incurred to purchase or build any capital asset, or to rehabilitate and extend the useful life of the Districts existing assets. Details of these expenditures can be found in Appendix E – Capital Improvement Program Expenses and Appendix F – Ongoing 10 year Capital Improvement Program Summary. Total capital costs including debt service are approximately \$7.065 million. Debt service accounts for \$760,284 for FY24-25.

5 OPERATING BUDGET

The Operating Budget is used for all District operational expenses. Its income source is primarily annual sewer service charges. Operating Expenditures include Salary and Benefits as one of the largest expenses followed by Treatment Plant Maintenance, Collection System Maintenance, Administrative Expenses, Regulatory and Utilities.

5.1 OPERATING INCOME

Total Operating Income is budgeted at approximately \$5.46 million. Sewer service charges are a primary and recurring source of income. Sewer service charge income will be \$300K more in FY24-25 as a result of the rate increases and increased commercial activity and other factors. Other operating income includes: Inspection fees, Interest earned on Bank deposits and a SASM reimbursement for providing de-chlorination services for their agency.

Sewer Service Charges

Sewer Service Charges are the primary source of income for the District. Sewer service charge income of \$6.14 million provides 75% of the Districts total income in FY24-25. This income is primarily used for operational expenses, with any remaining balance allocated towards capital projects. Sewer service income will contribute \$1.02M towards capital improvement projects in FY24-25

District customers are charged a sewer service charge based on equivalent dwelling units (EDU), which is designed to reflect the average volume and strength of flows from single family residences. Commercial customers are assigned a calculated EDU values based off flow usage minus irrigation and multiplied by a strength factor depending on the type of use or a minimum of 1 EDU for no metered water usage. The Districts rates are due to increase in 2024 as a result of the Districts approved 2022/2023 Rate Study performed by HF&H Consultants. The new rates for the Ad Valorem Credited parcels \$1,534/EDU (Tiburon)and \$2033/EDU in the non Ad-Valorem Credited parcels (Belvedere).

Rate Review Completed in FY21-22 & FY22-23

The District has completed many large projects since the 2010 rate study was performed. Those projects include:

- 2014 Main Plant Rehabilitation Project (\$12Mil)
- Mar West Tiburon Station #5 Pump Station Improvements Project (\$1.2Mil)
- Cove Road Belvedere Station #1 Force Main Project (\$2Mil)
- Tiburon Station #1 and #4 Power Feed Improvement Project (\$.5Mil)
- Multiple Gravity Sewer Line Rehabilitation Projects(\$11.5Mil)
- Pump station control panel standardization and generator replacement projects (\$.5Mil)

The District most recently completed several master plans and studies between 2018-2023, those studies and plans include:

- Bio-Solids Management Master Plan
- SD5 Strategic Plan
- SD5 Succession Plan
- SD5 Pump Station Assessment Evaluation
- Collection System Master Plan

- Alternative Energy Evaluation and Recommendations plan
- SD5 Staffing Plan
- CIP and Occupancy Optimization Evaluation Plan

As a result of the completion of these project and reports, the District went forward with performing a rate study in FY22/23 to accomplish the following objective:

- To develop a multi-year financial management plan
- Identify future rate adjustments to help ensure adequate rate revenues;
- Determine the cost of providing sewer service to customer classes; and
- To recommend modifications to the Districts existing rate structures as needed to ensure that the District is equitably recovering the cost of service and conforming with industry standards and California’s legal requirements.

5.2 OPERATING EXPENSES

The Districts operating expenses are broken down into several categories, beginning with Administrative Expenses, Pumps & Lines Maintenance, Main Plant Maintenance, Paradise Cove Plant Maintenance, Monitoring, Permits & Fees, Truck Maintenance, Salaries and Benefits and Other Operating Expenses.

Below is a chart breaking down Operating Expenses minus the Districts capital expenses as shown in the above chart.

Chart 3. Budgeted Expense Chart (Operations Only)

Administrative Expenses

Administrative expenses include several line items in the budget, in order to provide a greater level of detail and transparency in respect to administrative expenses. The items below are grouped in the administrative expense's category:

- Advertising- used for public notices and bidding notices
- Outreach & Newsletter- used for creating annual newsletters for our ratepayers
- Audit & Accounting- used for government required auditing and reporting
- Consulting Fees- used for Engineering, Environmental, and Financial needs that cannot be performed in-house
- Travel & Meetings- used for travel to conferences, workshops, meetings and training seminars
- Continuing Education- used for the cost of conference and training enrollment
- County Fees- used for Hazardous Waste BMP certification and other county fees
- Directors Fees- used to pay directors for attendance at board meetings
- Dues & Subscriptions- used for membership renewals into professional associations California Association of Sanitation Agencies (CASA), California Special District Association (CSDA), California Water Environment Association (CWEA), Water Environment Federation (WEF) etc.
- Elections- used whenever there is an election in which a Directors term is expiring
- Insurance-used for general liability, property, and auto with California Sanitation Risk Management Authority (CSRMA)
- Legal- used for attorney services for items that cannot be performed in house.
- Office supplies- used for general office supplies
- Postage- used for general mailing of items like invoices, checks to vendors, and equipment shipping.
- Pollution Prevention- used for public outreach materials as required by the Districts NPDES permit

Pumps & Lines Maintenance

Pumps & Lines Maintenance expenses are grouped in two different line items. Those include general line maintenance and emergency line repairs. General line maintenance includes costs to contractors to perform hand machine cleaning on sewer lines that are in easement areas which we do not have the ability to perform in house. It also includes any parts or equipment needed for pump station maintenance of the Rodder and Vactor Truck. Emergency Line repair is for the use of small repairs in the field that do not warrant a capital expense.

Main Plant Maintenance

The Main Plant Maintenance expenses include several line items that are used for the general maintenance and operation of the Tiburon Main WWTP. The list includes:

- Plant Maintenance Supplies- used for ordering supplies, like valves, nuts and bolts, piping and other spare supplies needed throughout the plant
- Plant Maintenance Parts and Service- used for the repair of pumps and or equipment. Vendors are used to perform annual maintenance tasks on more complex machinery like the blowers and emergency generator.

- Janitorial Supplies & Service- is used for the ordering of janitorial supplies for the restrooms and office and breakroom
- Main Plant Chemicals- used for the ordering of plant chemicals that are used for treatment of the wastewater. Chemicals purchased in bulk quantities include, sodium hypochlorite, sodium bisulfite, ferrous chloride, calcium nitrate and polymer.
- Lab Supplies & Chemicals- used for ordering supplies for the lab -for sampling and preservation of wastewater samples prior to testing as well as the chemicals used for preservation and calibrating analytical equipment
- Electrical & Instrumentation- used for the ordering of electrical components for the Main WWTP, could include, fuses, breakers, contacts, plc's (programmable logic controller) vfd's (variable frequency drives) etc.
- Grounds Maintenance- used for general up-keep around the plant like tree trimming and other small items like painting
- Main Plant Sludge Disposal- used for the disposal of Bio-solids. Bio-Solids are taken to Redwood Landfill in Novato and used as alternative daily cover (ADC) or they are sent to Lystek in Fairfield for further treatment and conversion to Class A bio-solids to be beneficially re-used as a fertilizer.

Paradise Cove Plant Maintenance

The Paradise Cove Plant Maintenance expenses include several line items that are used for the general maintenance and operation of the Paradise Cove WWTP. The list includes:

- Paradise Parts & Service- used for the repair of pumps and or equipment. Vendors are used to perform annual maintenance tasks on more complex machinery like the blowers and emergency generator.
- Paradise Supplies & Chemicals- used for ordering supplies, like valves, nuts and bolts, piping and other spare supplies needed throughout the plant and for ordering supplies for the lab duties required at this site -sampling and preservation of wastewater samples prior to testing as well as the chemicals used for preservation and calibrating analytical equipment.

Monitoring

Monitoring expenses are split between the Main Plant and the Paradise Cove Plant. Monitoring is used for the contracting of outside laboratories which perform our regulatory required NPDES sample analyses for the District. Those tests include, TSS, BOD, Ammonia, Nutrients, Mercury, Copper, Cyanide, Coliform, Enterococcus, Dioxin, PCB's, Acute Toxicity and Chronic Toxicity. The District does not have full time Laboratory staff, thus the Operations staff is only permitted to perform pH and Chlorine analyses. Operations staff is also able to perform non-regulatory process control sampling and testing.

Permits & Fees

Permits and fees expenses are used to renew our annual permits that are required by the handful of agencies that have regulatory authority over the District or non-profit agencies that we work with to ensure compliance with the regulatory agencies. The regulatory organizations include: State Water Resources Control Board (SWRCB), Regional Water Quality Control Board (RWQCB), Bay Area Air Quality Management District (BAAQMD), State of California Department of Industrial Relations, United States

Environmental Protection Authority (USEPA), County of Marin (COM). The non-profit organizations include: Bay Area Clean Water Association (BACWA) and the San Francisco Estuary Institute (SFEI)

Truck Maintenance

Truck maintenance expenses are split between actual maintenance and fuel. We track how much fuel is used per year and the maintenance line item is for actual planned maintenance and corrective maintenance that occurs during the course of the year. The District owns 10 total vehicles. A Vactor, Rodder, (trucks that are used for cleaning and maintaining sewer lines) Utility Truck (used for electrical equipment servicing and towing of portable generators), Service Truck (used for pump station maintenance- has a crane to lift pumps out of submersible wet wells), 2 mid-size trucks (1 used in operations for transportation of chemicals to the paradise cove plant and daily operations at that plant and 1 maintenance truck used for additional towing capacity of generators, water tank and for landscaping maintenance at the 24 pump station sites), 2 small For Mavericks that are used for daily inspections of the pump stations and facilities, 1 small Ford Maverick Hybrid that is used for administrative purposes (getting mail, making check deposits and attending off site meetings and trainings) and 1 small ford ranger that is used for construction inspections

Salaries & Benefits

Salaries & Benefits expenses are one of the Districts largest expense right after capital improvement project expenses. FY24-25 is estimated at \$3.07 million. This includes a 3.7% Cost of Living increase as established in the Memorandum of Understanding between the District and Staff.

There are multiple line items grouped under this category. Chart 3 identifies the total Salaries & Benefits as a whole. The salaries and benefits line items are broken down as followed:

Chart 4 Salaries and Benefits Breakout

Please note that Retiree Health includes both costs for current employee retiree health funding and retired annuitant yearly dues.

PERS retirement includes UAL funding towards Reserve account set at 3.5% of Total Market Value Assets (this reserve has been fully funded as of 2022)

Salaries and Benefits Continued...

- Salaries- is the annual cost for salary only, for all full-time staff and temporary staff
- Overtime- is the annual estimated cost the District will spend for the fiscal year- this figure is estimated based off historical trends.
- Standby Pay- is the annual cost to the District to have 1 maintenance and 1 operator on standby after a normal work shift- provides the District with an additional 14hours of coverage.
- Employee Incentives- used as a mean to further educate our workforce to provide cross training for a more knowledgeable, experienced, and professional staff.
- Vacation Buy-out- used to cash out up two weeks of accumulated vacation time on the books for staff requesting a buy-out.

- Payroll Taxes- social security contribution and other taxes (State & Federal Unemployment Insurance, Medicare)
- Payroll Bank Fees- used to pay the cost to process payroll with Paychex (fees vary based on amount of total payroll and number of checks/direct deposit transactions per payroll)
- Car Allowance- contractually provided benefit to the District Manager
- PERS Retirement- used to provide monthly employee retirement contributions to CalPERS, this account is also used to budget for Unfunded Accrued Liabilities and to prefund future Unfunded Accrued Liabilities
- Employee Health, Dental, Vision, Life Insurance and Long-Term Disability- is used for the funding of the employee's fringe benefits as outlined in the Districts Memorandum of Understanding
- Retiree Health – is used to pay-as-you-go fund retiree health benefits for retired annuitants
- California Employee Retirement Benefit Trust (CERBT) – is used to prefund retiree health benefits for current employees as outlined in the Memorandum of Understanding.
- Workers Compensation Insurance-used to procure insurance in the event there is a work place injury.

OPEB Liabilities Funding Strategy

As of June 30, 2022 (most current) the Districts OPEB liability was \$1,462,527. Of that amount the District has currently funded \$1,201,425 or 82%. The net unfunded OPEB liability is \$261,102. Paying down the unfunded actuarial liability will improve the Districts overall balance sheet and credit rating, decrease the Districts long term payments and operational costs and provide benefit security for current and former employees. Currently the District has adopted strategy 1 funding on the CERBT trust. This is to be reviewed each fiscal year as part of the adoption of the budget.

The District recently refinanced the Main Plant Rehab bond. The annual cash saving from that refinance was \$46,000 year. Those annual cash savings from the refinance have been designated for further paying down the District OPEB liabilities.

Pension Liabilities Funding Strategy

As of June 30, 2022(most current) the Districts accrued pension liability for the Classic Members was \$11,444,162. Of that amount the Districts market value of assets in the plan is \$10,661,143. The net unfunded pension liability is \$783,019. The Classic member pension plan is currently 93.2% funded.

As of June 30, 2022 the Districts accrued pension liability for the PEPRAs Members was \$616,299. Of that amount the Districts market value of assets in the plan is \$563,613. The net unfunded pension liability is \$52,686. The PEPRAs member pension plan is currently 91.5% funded.

Each year the District is required to contribute an amount based on net normal cost expressed as a percentage of payroll and an additional cash amount toward paying off the unfunded accrued liability (UAL) The District did not have annual required contribution for FY23-24 for Classic Members or PEPRAs Members as a result of overfunded status.

District staff did however make payments for UAL payoffs to CALPERS of \$64,093 for PEPRAs Members and \$863,956 for Classic Members on December 12, 2023 with board approval in order to fully fund pension obligations and not have an UAL (unfunded accrued liability) as the actuarial valuation reports are two years behind and the District understands the compounding interest on UAL's for balances for those two years.

In FY2019-2020 the District Board of Directors approved reserve policy funding for future CalPERS unfunded accrued liabilities. This action was taken as a result of CalPERS inadequacy of not reaching its investment return of 7.5% (now 6.8%). The Directors approved annual funding of 3.5% of market value assets until satisfying the set reserve target of \$1,000,000. The reserve target was fully funded in 2021 and most recently was used for the UAL accrued liability payment made on December 12, 2023. The current Balance in that reserve is \$71,951 and will begin to be refunded effective July 1, 2024 per policy.

Other Operating Expenses

Other operating expenses consist of, Data, Alarms, IT Support & Licensing, Safety, Personnel Protection Equipment, Telephones and Utilities which include water, power and natural gas. Please see the description below for each line item:

- Data Alarm & IT- is used for annual software licensing and support for our business and SCADA servers. It also provides outside assistance for our IT security and day-to-day needs, provides for programming and SCADA programming assistance. We have support for the following items: Arc View GIS (Collection System Mapping System), INFOR MP2 (Computerized Maintenance Management System), HACH WIMS (Laboratory Information Management System) Wonderware SCADA (Supervisory Control and Data Acquisition), TOPVIEW (SCADA Alarm Dialer Software) ENPDES (Johnson Lam ESMR reporting software); also Quick Books, Paychex, LaserFische, etc.
- Safety- is used for the Districts ongoing required safety training and safety equipment – for compliance with CalOSHA and ultimately for the safety and well-being of District staff
- Personal Protection Equipment-is used for the purchasing of safety clothing for staff- this is outside of the regular safety budget as it is CalPERS special compensation reported item.
- Telephones- used for the multiple phone lines required at the district. There are several phone lines in use at the District. There is 11 pump stations that currently have phone lines that are used for analog communications and the Paradise Cove treatment plant has its own dedicated phone line for calling. The Main treatment plant has multiple phone numbers for its business use and SCADA calling out features.
- Utilities- is used for water at the main plant, and three pump stations purchased through MMWD and power and gas is purchased from PG&E. Currently the District is in Marin Clean Energy light green tier. 9 sites have natural gas use for generators or general purpose use like that of the main plant. There are a total of 20 different PG& E accounts for power.

ORGANIZATION CHART

Sanitary District No.5 of Marin County
Tiburon-Belvedere

Board Draft Organization Chart
7/1/2024

Capital Budget

Total capital improvement program expenses for Fiscal Year 2024-2025 are estimated at \$7.06 million. The capital projects are split into several categories. Main Plant, Paradise Cove Plant, Collection System and DEBT service.

Capital Improvement Program income is estimated at \$2.7 million

7.1 CAPITAL IMPROVEMENT PROGRAM (CIP) INCOME

The District has three income sources for its Capital Improvement Program needs. Those sources are from Ad valorem (property taxes), Sewer Service Charges and Connection Fees.

It should be noted that the District only receives property taxes from the Tiburon parcels. The City of Belvedere kept the ad valorem taxes during the 2005 annexation thus the non ad valorem credit of sewer service fees for the City of Belvedere rate payers. As of 2014 newly annexed properties from the un-incorporated area of Tiburon (county) also do not contribute property tax (currently 2 parcels) and must pay the base rate.

Sewer Service charges are primarily used for operational costs – any remaining amount is used for capital improvements.

Ad Valorem (Property Taxes)

Property tax revenue from the Tiburon parcels is estimated at \$910,000 for FY 2024-2025. Property tax revenue represents 12% of the Districts total income. Excess (ERAF) Education Revenue Augmentation Funds are budgeted at \$350,000.

Connection Fees

New development or major remodels of existing structures represents 1.4% of Capital Improvement Program income. The majority of this income is from remodels as growth in the service area is limited.

Debt Financing

In 2012 the District issued revenue bonds of \$12 Million dollars for the Main Plant Rehabilitation Project. In March of 2020 the District took advantage of low interest rates and refinanced the remaining debt service from the Main Plant Rehabilitation Project \$7.9 million with the same maturity date of 2031 with an interest rate of 2.48%. The refinancing from 5% to 2.48% will save the District a cash flow savings of \$553,458.60 or approximately \$46,000 per year.

7.2 CAPITAL IMPROVEMENT PROGRAM EXPENSES

In the Districts continued efforts to protect public health and the receiving waters of the State of California, it continues to make capital investments to its two treatments plants and their corresponding collection and conveyance systems.

Tiburon Main WWTP Capital Expenses

The Tiburon Main treatment plant last went a major upgrade in 2012 which was completed in early 2014. The new equipment from that project is now nearing 10 years of age, although most of the equipment is still in great condition, some equipment is requiring replacement or rehabilitation. There were several items that did not receive a replacement or rehabilitation during that project, those include:

- Emergency Generator
- Dewatering Screw Press
- Odor Control System
- Auxiliary building and ground equipment like doors and hoists
- Majority of plant piping and valves
- Waste Gas Burner
- Dry Weather and Wet Weather Influent Pumps

FY 2024-2025 Projects are included below- detailed information on each project can be found in the CIP Information Sheets at the end of this report Appendix K. The projects' cost total is \$3,280,000.

- MP HVAC Replacement Project
- MP Occupancy Improvement Project
- MP Digester Cleaning and Rehabilitation Project

Paradise Cove WWTP Expenses

The Paradise Cove Treatment Plant was upgraded in 2010. Two package treatment plants were installed and were recently recoated in 2020 in order to prolong their life as they are exposed to the elements as they sit right next to the Bay exposed to the sea air. Being that it is a small treatment plant the equipment for this location is smaller and size and has fewer moving parts than its counterpart. Expenses for the treatment plant in fiscal year 2024-2025 are limited to a pump replacement project of \$25K.

Collection System Capital Improvements

Collection System Capital Improvement Program needs for fiscal year are a combination of things. The projects total \$2,850,000. The list of projects is below. Detailed information on each project can be found in the CIP Information Sheets at the end of this report:

- Boom Truck Replacement
- Pump and Valve Replacement Project
- Cove Road Pump Station Electrical and Generator Replacement Project & Site Improvements
- 2024 Sewer Line Rehabilitation Project
- Manhole Rehabilitation Project

DEBT Service

The 2020 Refinanced Main Plant Rehabilitation Bond debt service for fiscal year 2024-2025 is \$760,284. Debt service payment information through maturity in 2031 can be found in Appendix I

8 RESERVE POLICY

The District utilizes 4 separate cash reserves pursuant to Resolution No. 2024-06. The 4 cash reserves are as followed in order of funding priority they are generally described below for the entire district:

- Operating Reserve
- Capital Improvements Reserve
- CalPERS Retirement Reserve
- Disaster Recover Reserve

Operating Reserve

The operating reserve is used to provide sufficient working capital to cover annual operating expenses and cash flow needs, should typical operating funds not be available during the fiscal year. The target balance for this reserve is set at \$2,500,000

Capital Improvement Reserve

The Capital Improvements reserve is used to provide adequate funding to

- A. To support both treatment plants' operation,
- B. To fund debt payments of financed capital projects,
- C. To finance capital projects as listed in the District's budgeted CIP plan and
- D. To reserve funds for future plant +/-or systemic sewer line renovations

The target balance for this reserve is set at \$15,000,000

CalPERS Retirement Reserve

The CalPERS retirement reserve is used to provide sufficient annual funding of CalPERS potential losses, as described in the CalPERS' Annual Actuarial Valuation Reports under the Miscellaneous Plan's Share of Pool's Investments, Assets & Non-Assets. The target balance of this reserve is set at \$1,000,000

Disaster Recovery Reserve

The Disaster Recover Reserve is used to provide a level of emergency capital for disaster recovery efforts until long-term financing is established. The target balance for this reserve is set at \$1,000,000

MAIN PLANT CAPITAL IMPROVEMENT PROJECTS

Main Plant Project Name	DESCRIPTION
Odor Control Upgrade	This Project will evaluate current odor control system and vulnerabilities and also provide for options to replace, add to or enhance the current system.
Dry Weather Influent Pump	These funds will be used to purchase one new dry weather influent pump. These were not part of the MPR project.
Wet Weather Influent Pump	These funds will be used to purchase one new Wet Weather Influent Pump. These were not part of the MPR project.
Headworks Influent Screen Project	These funds will be used to replace 3 grinders with an influent screen to capture and remove rags and other inert matter.
Truck Purchase	These funds will be used to replace trucks at the end of their useful lives from the current fleet of district vehicles.
Emergency Outfall Rehabilitation	This project will consist of rehabilitating the abandoned effluent outfall pipe in order to have it available for use during emergency situations. Emergency Preparedness
Waste Gas Burner Rehabilitation	This project will evaluate current waste gas burner system and will be enhanced or replaced, dependent on evaluation report.
Aeration Basin Diffuser Upgrade	This project consists of replacing the current diffusers in the off line aeration basin with new style diaphragm type diffusers like the online aeration basin

	<p>this did not get upgraded during the MPR project</p>
<p>Underground Pipe & Valve Rehabilitation</p>	<p>These funds will be used for the replacement of non-working valves and rusted-out pipes in the shipping/receiving area, as well as next to the secondary clarifiers, as identified during the MPR Project.</p>
<p>Secondary Clarifier Scum Collector Project</p>	<p>This project consists of replacing the current scum collector troughs and and helical skimmers with new stainless steel skimmer from polychem/brentwood it also converts the 3 shaft system sludge collector mechanisms to 4 shaft to better assist with skimming and the mitigation of mosquito formation on surface of tank.</p>
<p>Maint Shop Rehabilitation Project</p>	<p>This project will consist of replacing a 35+ y.o. corrugated metal roof and siding on the maintenance shop, not rehabbed during the MPR Project. Also will involve replacing roll up doors installing LED lighting and proper equipment storage racks and hazardous waste storage cabinets</p>
<p>Sludge Box replacement</p>	<p>Replacement of Biosolids container, used for hauling bio-solids to Redwood landfill.</p>
<p>Corrosion Protection Project</p>	<p>This project consists of protecting plant assests and general buildings and grounds with the proper coatings/paint for corrosive environments</p>
<p>MP Roll up doors improvement project</p>	<p>This project consists of installing new powered roll up doors in the chemical room, replacing the roll up doors on the dewatering storage building and replacing the front entrance to headworks roll up doors with new power operated units- Engineering controls to minimize injuries</p>
<p>MP Occupancy Improvements Project</p>	<p>This project consists of creating appropriate restroom and locker room space along with office space for continuous occupancy for staff and laboratory improvements for continued effective and efficient process control and compliance with NPDES permit.</p>
<p>Emergency Generator Replacement</p>	<p>This project will consist of replacing the Main Plant Emergency Generator. These were not part of the MPR project. Generator is currently serviceable but planning and budgeting needs to be in line for 2024/25.</p>

Outfall Difuser Upgrades	Current condition of outfall is serviceable. Outfall is inspected every 5 years and must budget a reasonable amount for repairs or upgrades, as determined by future reports.
Undesignated Capital Projects	These funds will be used for unforeseen projects, which may come up after the MPR project is complete.
MPR Bond	Main Plant Rehabilitation Completed in 2014 - Bond Payments to show true annual CIP projections.

COLLECTIONS SYSTEM CAPITAL IMPROVEMENT PROJECTS

<i>Tiburon Zone Pumps & Line Project Name</i>	DESCRIPTION
Sewer Line Rehabilitation Program	These fund will be used for the ongoing Board approved 10 year sewer rehabilitation program. 10,137 lf of pipe remain to be rehabbed/replaced from the Harris report
Pump Station Pump and Valve Replacement Program	The District has 24 pump stations with 2-3 pumps in each station. The life expectancy for these pumps are 7-10 years. Therefore the District has a program to replace pumps over a period of time instead of replacing them all at once.
Pump Station Generator Replacement	The District has standby generators located at many of the Pump Stations. Some generators were installed between 1980 - 1983. These generators (in most cases) are located along the waterfront. The salt air has wreaked havoc on some of these generators; All have been replaced as of 7/1/2018
Pump Station Control Panel - Upgrade	These funds will be used for replacement of control panels at the District Pump Stations. The control panels are of various ages, of which most are obsolete 2 Control Panels remain to be replaced

<p>Man Hole Rehabilitation</p>	<p>This project will consist of rehabilitating or replacing man holes in the Tiburon area that have have defeciencies due to hydrogen sulfide detoriation.</p>
<p>CCTV Sewer System New PACP Data</p>	<p>This project will consist of retelevising the entire collection system in order to provide updated information regarding the condition of the system and to assist in establishing a new CIP project regarding sewer line rehabilitation</p>
<p>Flow Meter Installation Project</p>	<p>This project will consist of installing flow meters at certain corresponding pump stations to record flows from each site. This will assist with flow monitoring and assist in the District's continued effort to reduce I&I.</p>
<p>Force Main Rehabilitation Project</p>	<p>This project will consist of rehabilitating several force mains in the Tiburon Zone. Station #2, #3, #6 & #7</p>
<p>Pump Station Communications Project</p>	<p>Phase I completed. Master radio at the Main Plant has been upgraded, as well as the radio at Station #5. As new control panels come on-line in the Tiburon Zone, funds will be needed to bring the remaining 8 sites into the Main Plant communication network.</p>
<p>Undesignated Capital Projects</p>	<p>These funds are for unforeseen problems within the collection system.</p>
<p>Belvedere Zone Pumps & Line Project Name</p>	<p>DESCRIPTION</p>

<p>Sewer Line Rehabilitation Program</p>	<p>These funds will be used for the ongoing Board approved 10-year sewer rehabilitation program. 7,644 lf of pipe remain to be rehabbed/replaced from the Harris Reports.</p>
<p>Pump Station Control Panel Replacement</p>	<p>Within the Belvedere Zone, there are many pump stations with single-phase power with capacitors installed in the panel to generate three-phase power. The District is replacing the generators to new standardized control panels. To date - station #15, 14,13,12,5 & 3 control panels have been replaced. Need to purchase panels for #2 & #7</p>
<p>Pump Station Generator Replacement</p>	<p>Standby generators at the Belvedere pump stations were installed in the early 1980. Station #3 Generator recently replaced need to replace station #1 & #2 Generators</p>
<p>Cove Rd. Force Main Replacement</p>	<p>These fund will be used to replace 2107 lf of 10' force main. The force main has blown out on two occasions prior to 2005. According to previous Staff, it was difficult to find good pipe material to connect to, when making the repair. Recently the forcemain was compromised as a result of a 3rd party. Same issue was encountered when repairing. The current pipe size also lacks capacity during major wet weather events.</p>
<p>Lagoon Rd. Power Feed Improvement Project</p>	<p>Lagoon Rd. has 3 pump stations which pump sewage to one another. These station have no back-up power. These funds would be available to purchase a generator and install power conduits to connect all three stations in order to provide immediate back up power to these sites and it also reduce staff overtime. Emergency preparedness</p>
<p>Flow Meter Installation Project</p>	<p>This project will consist of installing flow meters at certain corresponding pump stations to record flows from each site. This will assist with flow monitoring and assist District's continued effort to reduce I&I.</p>

<p>San Rafael Ave. Diverter Project</p>	<p>This project will consist of evaluating current flows and collection system capacity at the intersection of Westshore and San Rafael Ave., feeding into TPS #3.</p>
<p>Manhole Rehabilitation Project</p>	<p>This Project will consist of rehabilitating or replacing man holes in the Tiburon area that have have defeciencies due to hydrogen sulfide detoriation.</p>
<p>CCTV Sewer System</p>	<p>This project will consist of retelivziing the belvedere collection system in order to get an updated condition of the sewer system and to assist in establishing an updated CIP program for sewer rehabilitation projects.</p>
<p>Undesignated Capital Projects</p>	<p>These monies are for unforeseen problems within the collection system.</p>

PARADISE COVE ZONE PUMPS & LINES CAPITAL IMPROVEMENT PROJECTS

<p><i>Paradise Cove Project Name</i></p>	<p>DESCRIPTION</p>
<p>Influent Pump Replacement Program</p>	<p>Currently there are 6 grinder-style pumps in service at ParadiseCove. Each has a usefule life of 7-10 years. This program is established to replace pumps as needed; not all at once.</p>
<p>Package Plant Coating</p>	<p>Due to its close proximty to the bay, the metal package-plants require marine coatings every 7-10 years.</p>

Influent Well Access Cover Replacement	This project consists of replacing the current access covers with fixed, mounted, flush-to-the-ground, traffic-rated, as there is limited space at the Paradise Cove Plant.
Blower Replacement	The current blowers were installed as part of the 2009 start-up of the upgraded plant. They have a useful life of 7-15 years. SD5 must begin to replace them soon.
Plant Grating Replacement	This project will consist of replacing the current grating with non-rusting fiberglass grating.
Grit Removal Project	This project will consist of evaluating the Paradise Cove Plant for possible grit removal systems in order to prolong the life of the pumps.
UV Disinfection	Possible installation of UV disinfection, which would eliminate the transportation of chemicals to the Paradise Cove plant. Will need a feasibility study. Language included in current permit for future installation date, if feasible.
Plant Access Improvements	This project consists of paving the access road to the plant for better access and quicker road clearing during mud slides- only access point to facility critical.
Undesignated Capital Projects	These funds will be used for unforeseen projects.

8.10 APPENDIX J: SD5 RESERVE POLICY- RESOLUTION NO 2024-06

**SD5 RESERVE POLICY
RESOLUTION NO. 2024-06
July 1, 2024**

	OPERATING RESERVE*	CAPITAL IMPROVEMENTS RESERVE	CALPERS RETIREMENT RESERVE*	DISASTER RECOVERY RESERVE*
FUNDING ORDER	#1	#2	#3	#4
FUNDING PURPOSE	To provide sufficient working capital to cover annual operating expenses and cash flow needs, should typical operating funds not be available during the fiscal year	To provide adequate funding A) to support both treatment plants' operation and conveyance systems, B) to fund debt payments of financed capital projects, C) to finance capital projects as listed in the District's budgeted CIP Plan, and D) to reserve funds for future plant +/- or systemic sewer line renovations E) 2012 Main Plant Rehabilitation (MPR) Bond Service	To provide sufficient annual funding of CalPERS potential losses, as described in the CalPERS' Annual Actuarial Valuation Reports under the Miscellaneous Plan's Share of Pool's Investments, Assets & Non-Assets	To provide a level of emergency capital for disaster recovery efforts until long-term financing is established
CURRENT BALANCE	\$1,508,028* Current Operating Reserve Fund \$4,151,717* Current Operating Fund	\$9,725,065 (Current Capital & Capital Reserve Balance)	\$71,951*	\$1,000,000*
TARGET BALANCE	\$2,500,000	\$15,000,000	\$1,000,000*	\$1,000,000*
PROPOSED ANNUAL FUNDING	(FY24-25 Sewer Service Fees: 6,143,508) 5% of Sewer Service Charges ≈ \$307,175*	TBD per Annum	\$1,000,000*	\$1,000,000*
FUNDING PROCESS	≈5% of revenues received for sewer service charges (based on annual flow rates) is to be funded each Fiscal Year, until target balance is achieved; no add'l funding required thereafter. If reserve subsequently dips below target balance, funding is to be reinstated.	Based on Capital needs per annum. Sewer service charges, property taxes and other capital-related funds received to be assessed annually and funded as cashflow permits, based on annual projects; any remaining funds will be reserved for long-term capital needs. (see Funding Purpose above, Items C & D)	3.5% of SD5's Pooled Plan Share of CalPERS Market Value Asset is to be funded each Fiscal Year, until target balance is achieved; no add'l funding required thereafter. If reserve subsequently dips below target balance, funding is to be reinstated.	To be funded one time only, from current Capital Reserve Account. No additional funding required, once target balance is achieved. Finance Committee will evaluate the need to reinstate.
AUTHORITY REQUIRED FOR FUNDING & WITHDRAWALS	District Manager is authorized to make withdrawals as necessary, to cover operating shortfalls, upon review by the Finance Committee, as set forth in this Reserve policy. All other transfers to be presented for review by the Finance Committee and recommended prior to withdrawal. Board approval is required for atypical funding.	District Manager is authorized to make monthly withdrawals for debt payments and capital improvement projects underway, upon review by the Finance Committee, as set forth in this Reserve policy. All other transfers to be presented for review by the Finance Committee and recommended prior to withdrawal. Board approval is required for atypical funding.	District Manager is authorized to make withdrawals for payments to CalPERS for unfunded liabilities upon review by the Finance Committee, as set forth in this Reserve policy. All other transfers to be presented for review by the Finance Committee and recommended prior to withdrawal. Board approval is required for atypical funding.	All withdrawals and transfers to be presented for review by the Finance Committee and recommended to the Board for approval.

8.11 APPENDIX K- INCOME VS EXPENSE PROJECTION GRAPH

Agenda – Notes of Explanation
Sanitary District No. 5 Special Board Meeting
June 20, 2024

Review and authorize District Manager to award Chemical Contracts for FY2024-2025 received through the Bay Area Chemical Consortium Group (BACC) bidding process.

STAFF REPORT:

The District is part of the BACC group for annual bulk chemical contracts for Sodium Hypochlorite and Sodium Bisulfite. The low bidders for this upcoming fiscal year is: Univar for Sodium Hypochlorite and the Thatcher for Sodium Bisulfite. The cost of Sodium Bisulfite is decreasing 10.32% from last fiscal year and the cost of Sodium Hypochlorite is increasing 12.84% from last fiscal year

<u>Fiscal Year 2023-2024 Costs:</u>	<u>Fiscal Year 2024-2025 Costs</u>
Bisulfite = \$1.84/gallon	Bisulfite= \$1.65/gallon
Hypochlorite= \$2.88/gallon	Hypochlorite= \$3.25/gallon

FISCAL IMPACT:

A 10.32% decrease for sodium bisulfite and a 12.84% increase in cost for sodium hypochlorite chemicals.

CEQA (California Environmental Quality Act)

Exempt

Recommendation:

Approve and Authorize the District Manager to award Chemical Contracts for FY2024-2025 received through the Bay Area Chemical Consortium Group (BACC) bidding process.

Tony Rubio, District Manager

RE: Award Contract in Response to Bay Area Chemical Consortium (BACC) Bid No. 11-2024 for Supply and Delivery of SODIUM BISULFITE.

Dear Mr. Mitchel,

We are pleased to advise you that the bid submitted by Thatcher Company of California, Inc. for Bid No. 11-2024 was determined to be the lowest responsive bid for the supply and delivery of SODIUM BISULFITE during the period July 1, 2024 through June 30, 2025.

The participating BACC Agencies should be contacting you shortly to discuss entering into contracts with Thatcher Company of California, Inc. for their respective facilities.

Bay Area Chemical Consortium sincerely appreciates your efforts and participation in the competitive bid process.

If you have any questions, please free to contact me at jdymment@bacwa.org

Sincerely,

Jennifer Dymment

RESOLUTION NO. 2024-07

SANITARY DISTRICT NO. 5 OF MARIN COUNTY

A RESOLUTION ACCEPTING COMPLETION AND DIRECTING
DISTRICT MANAGER TO FILE NOTICE OF COMPLETION FOR
THE 2022-2023 SEWER REHABILITATION PROJECT

WHEREAS, Antonio Rubio, District Manager, of said District, did file with the Secretary of said District, his Certificate of Completion as to the completion of all the work provided to be processed under and pursuant to the contract between said District and Hardimann Construction Inc., dated September 16, 2022; and

WHEREAS, it appears to the satisfaction of this Board that said work under said contract has been fully completed as provided for in said contract and the plans and specifications therein referred to;

NOW THEREFORE BE IT RESOLVED, by the Board of Directors of Sanitary District No. 5 of Marin County, California, the following:

1. That acceptance of completion of said work shall be, and it is hereby made and ordered.
2. That the District Manager is directed to execute and file for record with the County Recorder of the County of Marin, Notice of Completion thereof, pursuant to §3093 of the Civil Code of the State of California.

* * * * *

I hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly passed and adopted by the Board of Directors of Sanitary District No. 5 of Marin County, California, at a meeting thereof duly held on the 20th day of June 2024, by the following vote:

AYES, and in favor thereof, Directors:

Re: Educational Revenue Augmentation Fund (ERAF): Charter Schools—OPPOSE

Dear Chairs Wiener and Gabriel:

On behalf of Sanitary District No.5 of Marin County, we respectfully request that your committees reject the Administration's proposal to unconstitutionally redirect local property tax dollars away from core public services provided to our constituents. The Administration's proposal not only directly conflicts with constitutional protections approved by voters in 2004, but will result in dramatic losses of local general purpose revenues that will affect critical local programs and services for the foreseeable future – without increasing funding to charter schools.

In Marin County alone, the proposal would result in the ongoing loss of approximately \$1.1 million in Excess ERAF funding per year to 65 local governmental entities that deliver vital transportation, public safety, safety net, and other services to our communities.

In 2004, after a lengthy negotiation between the Administration, Legislature, and local governments, Proposition 1A was considered and overwhelmingly approved by voters. Proposition 1A amended the State Constitution to bar the Legislature from "reducing for any fiscal year the percentage of the total amount of ad valorem property tax revenues in a county that is allocated among all of the local agencies in that county below the percentage of the total amount of those revenues that would be allocated among those agencies for the same fiscal year under the statutes in effect on November 3, 2004."

When the dispute over ERAF and charter schools arose in 2021, the Legislature directed the State Controller's Office to issue guidance to county auditor-controllers in affected counties; in that guidance, the Controller **did not** include charter schools in the allocation methodology. That finding was appealed in court. The trial and appellate courts **rejected** these arguments, finding that the appellants failed to establish that the statute includes charter schools in the allocation of ERAF.

The Administration's proposal to "clarify" that charter schools should receive funds from ERAF would clearly violate the constitutional provisions contained in Proposition 1A, as it would reduce the total percentage of property tax revenues allocated to counties and cities below what the laws in effect on November 3, 2004 would have provided. The courts have determined that those statutes **did not** include charter schools, as reflected in the guidance from the State Controller's Office and the final decision of the appellate court. As such, the Administration's proposal is not simply a "clarification" of the law; it **overturns** the Controller's interpretation which was repeatedly upheld by the Courts.

Lastly, this proposal if allowed to go forward would result in **disproportionate impacts** among these counties in the context of the significant safety net cuts included in the May Revision among all counties. We urge you to reject the Administration's proposed trailer bill language and appreciate your consideration of our concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Tony Rubio", is written over a horizontal line.

Sincerely,

Tony Rubio
District Manager
